Connecting Candidates to Voters

Brooklyn, NY - Premier Strategies, Inc. is proud to announce our new partnership with the revolutionary new civic engagement and social media platform, Vote In or Out.

Vote In or Out is a, first-of-its-kind, non-partisan social media platform that allows users to learn information about candidates running for office direct from candidates, elected officials, and other users. The platform directly connects people to the positions via articles about different candidates, and allows users to explore who supports their stances on the issues with swipe-able candidate score cards. The platform seeks to increase voter participation, improve productive political discourse, and help to hold public servants accountable to their constituencies.

Vote In or Out Founder and CEO, Lisa Mollica had this to say of the partnership,

“We’re very excited to be able to partner with Premier Strategies as we approach the end of the 2020 election cycle and look ahead to our 2021 national expansion. Greg, Taylor, and April are the team we want working alongside us as we grow our platform.”

To register and join Vote In or Out, visit www.VoteInorOut.com on any internet connected device.
